## "Pioneer" Line The Equitable Life Assurance Society OF THE UNITED STATES.

From the beginning, the Equitable has been the pioneer in all reforms affecting the security, convenience, and advantage of policyholders. It was the first company to issue incontestable policies; the first to make such policies payable immediately, instead of after the delay of a stipulated number of months; the first to simplify the policy contract, and remove from the business technical and confusing complications; the first to apply the Tontine principle to life assurance; the first to issue a policy guaranteeing the payment of the entire reserve and a full share of the accumulated profits to each policy holder at the end of a stipulated period; the first to introduce the Semi-Tontine policy, which, in addition to all the ultimate advantages secured under the Tontine system, is "non-forfeiting," and has a surrender value during its earlier years.

During the twenty-six years and a half of its history, it has written \$105.000.000

more of assurance than any other company during the same period!

No other company has approached the Equitable in the success achieved and surplus accumulated, and the results of management in the past furnish the best guarantee for the future, to intending assurants.
